Allowance

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Mr. Wathen.

2. The application has been amended as follows:

Claim 12, lines 16, "pivotally interconnect" has been replaced with -- in mechanical communication --.

Cancel claims 19-22.
3. The following is an Examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims in this case, is the inclusion of the limitation "a front section pivotally coupled with the rear section, the front section extending between the front windshield and the rear section when the hardtop is in the extended position; a center panel opening defined between the rear and front sections, a balance link having a first end in mechanical communication with the front section and a second end in mechanical communication with the vehicle body; a center panel interconnected with the balance link for movement therewith, the center panel and balance link being configured such that when the top is in the extended position, the center panel fills the center panel opening and when the top is in the retracted position, the center panel moves out of the center panel opening." in the independent claim, in combination with the other recited limitations in claims supported by this application, which are not found in the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
